

Ella's Final Project

You have somehow retrieved the login information for a client of the website: Mike.
Decrypt this password (which is a real english word) in order to log into the Bank website
and then retrieve the credit card information from all clients. The compilation of credit
card information all put together will reveal a secret message...

Username = Mike

Password = 1498, 2473, 929, 1153, 451, 2756, 2833, 1155
